

FICHE TECHNIQUE

TECHNICAL DATA

Material:	100 % PES <i>(OEKO - TEX Standard 100)</i>
Adhesive:	polyacrylic
Adhesive base:	perforated
Adhesive perforation density:	32drops/cm ²
Weight (g/m ²):	210 g/m ² +/- 10%
Extensibility (%):	2-3%
Printing technology:	sublimation
Inks:	water 100% ecological <i>(OEKO - TEX Standard 100)</i>
Warranty:	up to 12 months by indor exposure in following conditions:
Operating conditions: - surface	primed (recommended for long exposures) dry, dust free surfaces
- temperature	14°C - 30°C
- humidity	max: 60%
Ekology:	100% recycling
Possible finishingd:	clean cut
Application surface:	glass, wood, metal, plastics, furniture boards, gypsum, diffrent types of walls
*CAUTION with smooth surfaces there may be glue residue	
Maximum width:	315cm
